Bus Kills Sailor In East Palo Alto; Crashes Injure 13

A Tanforan sailor was killed and his companion was seriously injured when they were struck at East Palo Alto late Sunday, by a Pacific Greyhound bus, and more than a dozen motorists were hurt on San Mateo County highways over the warm weekend. The victims included:

C. M. Golla of Redwood City, who suffered a serious neck injury.

SF 3 C Robert S. DeHart, 25, Tanforan, was instantly killed when he was thrown 87 feet when struck by a south-bound bus driven by Frank J. Coon, 36, of Salinas.

SF 3/C Everett L. Dahl, 23, Tanforan, was seriously injured by the impact, which occurred at 11:05 o'clock Sunday night, and he was taken to Dibble General Hospital at Menlo Park for treatment for a broken leg, contusions, abrasions and lacerations about the neck and body. His condition was reported satisfactory.

Coon, who told the California Highway Patrol he did not see the sailors until after the impact, was not held. His bus, which was en route to San Jose and Fort Ord, was passing an automobile on Bayshore Hwy. north of Glen Way when it struck the sailors, who apparently were crossing the highway.

Six soldiers from Fort Ord who were riding in the bus suffered cuts from broken glass and were treated at Dibble Hospital. Another bus was dispatched to take the passengers on to their destination.

DeHart was the third sailor pedestrian to be killed in the past month on San Mateo County highways. Two Tanforan sailors were killed when struck by an automobile driven by another Tanforan sailor on El Camino Real at the southern limits of Redwood City, May 17.

Golla, an insurance broker, suffered a serious neck injury Saturday at 5:45 p.m., when his automobile left Bayshore Hwy. south of Chestnut St. and overturned several times before coming to rest 360 feet from the roadway. Redwood City police reported today.

Golla, who resides at 608 Alameda de las Pulgas, was taken to Palo Alto Hospital by ambulance where his condition was described as "satisfactory."

Redwood City firemen were called to the scene immediately following the accident when spilled gasoline constituted a fire threat, but no fire broke out.

The automobile, police said, was totally demolished.

As a result of the numerous fatalities and injuries to Tanforan sailors, Chief Dep. Dist. Atty. A. S. Whitmore said he would ask the co-operation of Tanforan authorities to prevent sailors from standing in the roadway while hitch-hiking.

He said it had been called to his attention that there have been instances in which sailors have formed human chains across the highway to force motorists to stop and give them rides.

Two persons suffered minor injuries when the automobile driven by Enos J. Jenks, 33, San Jose, ran off the road, hit a guard post and overturned on Millbrae Hwy. at Millbrae Rd. at 1:45 p.m. Sunday.

Injured besides Jenks was Esther J. Noble, 75, San Jose, who was treated at Mills Memorial Hospital in San Mateo and released. The CHP reported that Jenks fell asleep.

A two-car collision on Middlefield Rd. at Second Ave. at 8:30 a.m. Sunday caused minor injuries to three persons. Injured were Dorothy Hazeltine, 27, 3101 Waverly Ave., North Fair Oaks, who was taken to Palo Alto Hospital for an arm injury; Demma, 28, 325 Fifth Ave., and Ines E. Breeze, 40, 467 Avenue Del Ora, Redwood City.

Drivers of the cars were Maurice E. Breeze, 47, and Ben Demma, Jr., 31. Demma was driving north on Middlefield Rd. and Breeze was driving west on Second Ave.

A sailor, identified as Seaman 1/c Manuel Garcia, 21, of Tanforan, escaped injury early Sunday morning when he walked into an automobile driven by Phyllis L. Graves, 43, of 411 E. Flora St., Stockton. Redwood City police said.

Garcia was on Bayshore Hwy. when he walked into the side of the automobile and was thrown to the ground, police said. He declared he had not been injured, and left the scene of the accident.

**Ellsworth Van Buren
Is Sued for Divorce**

Charging that her husband beat her so badly that her head was deeply lacerated, Mrs. Ethel M. Van Buren, 2716 San Carlos Ave., San Carlos, Tuesday filed suit for divorce in superior court here against Ellsworth M. Van Buren, a painting contractor.

Mrs. Van Buren charged that on June 8, the date of separation, her husband came home "in an intoxicated condition" and choked and beat her and that her skull was deeply lacerated.

She asked \$50 a week support. She stated her husband earns in excess of \$400 a month.

The couple was married in San Francisco Mar. 7, 1929.

Ice Follies Begin Run at Winterland

The Shipstads and Johnson, for six years the all time favorites of San Francisco entertainment-goers, have brought their spectacular Ice Follies back to this city, now their "home," it was announced today. Their summer showing will be at Winterland, their usual habitat.

The famous ice show, largest in the nation today, is expected to play its usual three-month season in San Francisco, during which time the company will engage in production of next year's presentation.

George J. Campbell, general manager of Winterland, said that the 1945 edition of the Ice Follies will present practically all of the favorite ice stars of the past few years with a generous portion of new stars, many thrills, and a great deal of comedy.

Heading the list of ice greats who are again with the frosted fantasy are Roy Shipstad, the world's smoothest skater; Eddie Shipstad and Oscar Johnson, the top comic team of the North American continent; Heine Brock, master mimic of the ice; Hazel Franklin, English ice beauty; Erick and Frack, Swiss zanies; Idi Pappe and Karl Zwack, Continental favorites; the Thomas Twins, duplicate cuties; the Roberts, sensational pair team; Phyllis Legg, only female skater in the world; the Miltons, surprise laugh hit; Ruby Maxson and Bobby Blake, "Sweethearts of the Swing Waltz."

Evelyn Chandler, "America's Queen of the Ice," great and famed ice artist popular here and in all other major cities of the nation, has rejoined the show, it was announced.

Newcomers include Jane Zeiser, 18-year-old St. Louis beauty; Dick Rasmussen and Bill Cameron, youthful comics, and Barry Green, Canadian ace, who turns in a torrid pair exhibition with Hazel Franklin.

Tickets for the Ice Follies of 1945 may be obtained now at Winterland and at Sherman Clay box offices in San Francisco and Oakland.

**Port Force Needs
20 Additional Men**

The Peninsula Unit of the U.S. Coast Guard Volunteer Port Security Force has issued an appeal for 20 additional men to fill specific watches at the vital installation now guarded by the outfit.

"However, the coast guard supplies them with uniforms, weapons, and good food," the said, includes such hard-to-get items as butter, pineapple, eggs, sugar, and an occasional steak.

Applicants, he said, may contact Mrs. Florence Donnelly at the city hall in Redwood City, Boatswain's Mate First Class Thomas Leach, 129 Seville Way, San Mateo (SM 3-2041) or Boatswain's Mate First Class George A. Boden Jr., 12 10th Ave., San Mateo (SM 4-0492).

**Burlingame Man
Covers UNCIO**

George Moorad of 1212 Drake Ave., Burlingame, has covered stories and broadcast news flashes from Sydney to Moscow, but he had to return to his own front yard to tell the eyewitness story of the greatest news event yet—the United Nations conference in San Francisco.

Moorad flew home from Moscow, where he has been for seven months, to broadcast a daily 5 a.m. news roundup for Columbia Broadcasting System. His program, "News of the World" is aired locally over station KQW at 6 a.m. every day.

The local commentator arrived here the day before the conference opened after a six-day plane trip from Russia he shared with Averill Harriman, U. S. ambassador to Russia.

Brazil gets its name from its earliest explorer of export, pau Brasil, a tree from whose heartwood a valuable crimson dye was extracted.

Eleven Fires In R.C. Area In 24 Hours

Fire which threatened three adjoining buildings caused an estimated \$2000 damage Tuesday to a Woodside garage and barn, while 10 other fires in the Redwood City area were reported in the 24-hour period of continuing heat.

The Woodside firemen said that the blaze must have started in the grass of the Woodside School yard, spreading to the adjoining fence, garage and barn before an alarm was turned in at 6:32 p.m.

Both buildings were completely destroyed. The property was recently sold by Pete Bernasque to John Verzello of San Francisco. Twenty men battled the flames for half an hour before bringing the fire under control. They were able to keep the blaze from spreading to the nearby barn although some sparks did light on the roofs of the buildings.

More than 50 acres of grass were burnt over by rapidly moving flames west of Palomar Park Tuesday afternoon, the county fire department reported. Several homes were endangered by the fire which was brought under control by 2 p.m., an hour and a half after the alarm was turned in.

Three pieces of equipment were sent out from the county service, one each from Woodside and San Carlos. Smoke billowed from the extensive blaze and attracted a large crowd.

Menlo Park Fire Department reported six no-damage grass fires in the 24 hours ending Wednesday.

The calls were turned in at 8:28 a.m. when Menlo firemen extinguished a grass blaze at Robie Ave., near El Camino Real; at Donohoe St. and Menlo Ave., at 9:43 a.m., and to Beresford St. and Woodside Rd.

San Carlos firemen answered two calls Tuesday evening and one Wednesday morning while the Redwood City Fire Dept. was called to 157 Finger Ave. at 2:19 Tuesday, where a fire had burned through clothing on an ironing board. Small damage was caused at 6:32 p.m. Tuesday night when a camp stove exploded in the back at 335 Jeter St., firemen said.

**D.A. Grills
M.P. Who Shot
Two Seamen**

The army military policeman who early Monday morning shot two merchant seamen in the legs at Daly City and two shore patrolmen who he claims to have been aiding were to be brought by the provost marshal's office to Redwood City Tuesday afternoon for questioning in Dist. Atty. Gilbert D. Ferrell's office.

Names of the military men involved continued to be shrouded in secrecy.

David R. Hardy, 22, of Elgin, Ill., and Stephen P. O'Donnell, 20, of Seattle, Wash., the two seamen who were shot, were questioned yesterday by Special Investigator Frank Marlowe of the district attorney's office.

Both Hardy and O'Donnell were reported in good condition today by aides at the San Francisco Marine Hospital, where they were taken after being treated at Community Hospital at San Mateo.

The two told Marlowe they were shot during a fracas over a navy shore patrolman's motorcycle. They declared they were not attempting to take the motorcycle, pointing out that their automobile was parked across the street from where the shooting took place.

The Daily City police reported the seamen were "fooling" with the motorcycle, when the shore patrolmen ordered them to get away from the machine.

The seamen denied that they had threatened to take the gun away from the army M.P.

The police report made yesterday showed that the army M.P. went to the aid of the shore patrolmen and one of the merchant seamen threatened to take his gun, and that in the ensuing scuffle, a shot struck one of the seamen in the thigh and the other was struck by a bullet that ricocheted into his leg.

**County Government
Cost Down in '43-'44**

San Mateo County's expenditures for general county government for 1943-44 averaged \$17.72 for each person in the county compared with an average of \$18.60 per person for 1942-43, the California Taxpayer's Assn. reported Tuesday.

Expenditures for 1943-44 broken down were: general government, \$2.84 per capita; protection to persons and property, \$2.23; health and sanitation, \$1.43; highway and bridges, \$2.39; charities and corrections, \$7.79; recreation, education and miscellaneous, \$0.83; and debt payments, \$2.22 per capita.

Planners Vote Survey Of Tract

Redwood City planning commission members Tuesday decided to make a survey of the Carson-Monckton tract known as Redwood Terrace on Sunday, following a discussion of the proposed subdivisions of the land.

Planning Commission Chmn. Lawrence Brian said today that the main argument about the tract centered around drainage conditions on the land. Members will make an extensive tour of the property. They are concerned mainly with the type of drainage provided for the proposed first unit of 120 homes to be built on the property.

Approval of the Redwood Terrace map will be discussed at the next regular meeting of the commission on July 10. The property is owned by the Land Development Co. of San Francisco and runs north and east of the Menlo Club in Woodside. It has a total of 630 acres.

Discussion of zones in Redwood City suitable for light industrial development was precipitated by Grover Allspaugh, owner of the Redwood City Laundry. Allspaugh told the commission that he hoped to build an addition to his laundry near Five Points. This area is not zoned for light industrial development, he pointed out.

Planning commission members explained that discussion of such rezoning was still in preliminary stages.

Consideration of the tentative map of Emerald Lake Heights was put over until the next meeting. Although the commission has no legal jurisdiction in this area, it exercises an advisory role with the county planning commission in subdivisions within a three-mile radius of Redwood City.

Second Points Veteran Home

Second Redwood City soldier to be discharged under the army point system, S/Sgt. Leslie J. Piehl of 2939 Crocker Ave., has returned after 38 months in the China-Burma-India theater, his sister, Mrs. E. L. Blate, reported.

The 26-year-old sergeant received his discharge Friday from Camp Beale, where he had been stationed for several weeks after flying home from India. Piehl had 89 points.

Joining the army in September, 1941, he went overseas more than three years ago. Piehl served as armament non-commissioned officer in Gen. Claire Chennault's 14th AAF. A graduate of Sequoia High School, he was authorized to wear the American Defense Ribbon, the Asiatic-Pacific Ribbon with two battle stars and the Good Conduct Medal.

The ex-soldier was employed by a building construction firm here prior to entering the service. His mother, Mrs. Pauline Piehl of Vancouver, Wash., is visiting with her son. Piehl also has two other sisters, Mrs. Earl Johnson of Vancouver and Mrs. Andy Pederson of Salem, S. D.

The veteran plans to take a lengthy vacation and visit relatives before deciding for what type of government education he will apply.

Youth Arrested For Parole Violation

George Granger, 19, 427 Samson St., was arrested by Redwood City police Tuesday night at the request of juvenile authorities here.

The juvenile home reported that Granger is being held for violation of parole.

Pays to Know Your Onions In Planning Victory Gardens

Large Onions Grown From Onion Sets, Harvested in August.

Most Victory gardens grow onions from sets. These are merely dwarfed onions, grown last year in crowded rows which prevented them from developing normal size. They are grown from the same seed that produces large onions.

Their advantage over seed is in the time they take to grow to usable size. They will produce green onions in three weeks, and mature onions in three months.

From 15 to 30 pounds of large onions can be grown from a pound of onion sets which do not average over three-quarters of an inch in diameter. To grow large onions, sow small sets an inch deep; and to grow spring or green onions, to be eaten before bulbs begin to form, sow larger sets two or three inches deep.

Spanish and Bermuda onion plants are started in the southern states, pulled up when as large as a lead pencil and shipped north to be planted in gardens. They should be fresh and green when you

plant them and should not be set out for a week or two after your first seed crops have been planted. To grow mature onions, space these plants four inches apart, in rich soil.

Green onions may be grown from seeds, sown with the first crops. It takes much longer to produce either green or mature onions from seeds than from sets. Sow fairly thickly, and cover half an inch, and thin out the young plants early. If you are growing for green onions, space them an inch apart. As they attain a usable size, they can be used, and plants may be left standing four inches apart to mature.

When the onion tops grow limp and fall over, it is a sign that the bulbs are mature. They need not be pulled at once, but when they are harvested they should be dried several days in the sun and stored in a well ventilated place.

A rich soil is required to grow large onions from seed. A balanced plant food should be applied at the rate of a pint to 25 feet of row.

BOY SCOUT NEWS

With the opening of the summer camping season less than two weeks away, officials of the San Mateo County Council announced this past week that reservations for the second and third periods at the camp are now being received, as registrations for the first period is now closed.

Dates of the sessions are July 8 to 15 and July 15 to 22. The fee for each week of the camp is \$13.

Especially emphasized was the request that all Scouts attending the camp who desire transportation by bus must make reservations at least one week in advance of the departure date.

Buses will leave on Sunday mornings, July 8 and July 15, at 8 a.m. from the bus station at the corner of Howard Ave. and California Dr. in Burlingame. No stops can be made to pick up passengers en route, it was said.

An adequate staff of junior and adult leaders has been lined up for the entire camp period, it was announced by E. A. Bauer, scout executive, who will serve as the camp director, today.

Among those who will aid in the direction of the many features offered at the popular summer camp

for the scouts will be Joe Aliamus, Dr. James Foley, Ed Burton, E. O. Brose, Chet Wilson, C. K. Eisler and Bill Hofmann, George Key-stone, Drew Terramorse, Grant Brown, Bill Donnelly, James Pol-lack, Bruce Wheeler, Dick Angus, Bud Ferrell, Bob Waters, Bob Naughten, Bill Cook, Pat Hazel, Jack Russell and William Perry.

Troop 105: Dick Rodriguez was admitted to membership as a ten-derfoot Scout and Richard Lantz was advanced to second class Scout rank at the meeting at the Scout Hall on June 8. Plans were outlined by T. J. Seitz, scoutmaster, regarding the setting up of a troop library. A new series of patrol con-ferences were inaugurated, and a drum and bugle corps, recently or-ganized gave a short demonstration at the U.S.O. Twenty-five members were present.

Troop 143: Routine business and a report on a recent overnight hike were features of the last meeting of the troop under the leadership of Hamilton Day, scoutmaster. Seven-teen of the membership were pres-ent. The overnight hike attracted 24 Scouts and eight of the dads with the two leaders in charge as last weekend was spent in the hills near here.

Troop 104: Seventeen members were present under the direction of L. W. Allen, scoutmaster, for a meeting featuring games and scout advancement. Some excellent con-tests were staged and many projects in test-passing were completed.

Ship 143: Sea Scouts of the "Challenger" took part in the re-cent Memorial Day parade under the direction of Warner Britschgi. Following the ceremonies the crew called their craft to Coyote Point and towed back a pulling boat to the Redwood City harbor.

A feature of the last meeting was rope work given by Mr. Wolthers and a visit by Andrew Allen, radio-man, recently honorably discharged from the U.S. Navy, was enjoyed. Sixteen of the crew were mustered at roll call, Bob Johnson, yeoman, reported.

Troop 160: Eighteen were present at the last meeting with E. H. George, scoutmaster, in charge. A future troop camp was planned, games were played and the troop committee met in session.

Troop 149: With two patrols in action, several lively contests in-volving scout skills were the high-light of the June 6 meeting under the direction of K. J. Wenzel, scout-master. The compass contest prov-ed the best of the evening. Several of the members passed some scout advancement during the evening.

Troop 154: Business and games featured the last meeting attend-ed by 32 of the membership with Ste-wart Barber, scoutmaster, in charge. Seventeen scouts were reported to have accompanied four of the staff for a swimming party on June 3.

City Councils Again Oppose Serra Route

Resolutions unalterably op-posing the present state pro-posed Junipero Serra route through San Mateo County and recommending an alter-nate from Sneath Lane back to the Skyline Blvd., thence South, were received from all the city councils of Peninsula municipalities from San Bruno through Atherton at a meeting Tues-day night of the Junipero Serra study committee.

The committee, headed by Elsa McGinn, chairman of the San Mateo Planning Commission, met at the San Carlos city hall.

Chairman McGinn proposed these resolutions be presented to the San Mateo County Board of Supervisors at their meeting in Redwood City next Tuesday and appointed a committee to be present.

Named were C. L. White, San Bruno city engineer; C. M. Speers, San Mateo councilman and plan-ning commission member of that city; Fred Drake, chairman of the San Carlos planning commission; and Robert Klassen, city engineer of San Carlos and Belmont, and proponent of the alternate route.

These resolutions are also to be sent to the San Mateo County Plan-ning Commission, the San Mateo County engineer, the Central Coast Council of the State Chamber of Commerce and the City Council of San Bruno. This city is within the jurisdiction of Joint Highway Dis-trict No. 10, which has right of way as far as Millbrae.

A communication from the Cali-fornia Highway Commission and the Division of Highways sent by G. T. McCoy, state highway engi-neer, caused considerable com-ment.

"The California Highway Com-mission and the Division of High-ways have authority and jurisdic-tion only over those roads which are duly designated state highway routes by the legislature," McCoy said in his letter.

"The Junipero Serra Blvd. is not a duly designated state high-way, so that the department has no authority or jurisdiction over that project. Any continuation of the project south of the terminus of the present joint highway dis-trict project at Burlingame would have to be done either by the county or by the organization of a new joint highway district."

"At the request of the board of directors the Division of Highways in 1938 made a survey southerly from the terminus of the present project at Burlingame, as an agent of the joint highway district."

"Full authority and responsi-bility for determining the locations of any prolongation of the Junipero Serra Blvd. southerly from Burlingame rests with the agency con-structing the highway, that is the county or the joint highway dis-trict. It is not compulsory that the county nor any new joint highway district follow the location surveyed by the state."

George Mann, of the San Mateo planning commission said in regard to this letter, "there are disclaimers on every hand, and yet so many rumors, no one is going to put it there and yet we know it is going to be put there."

He recalled the Mar. 29 meeting at San Carlos of planning com-missions and other officials of the county to discuss the Serra Blvd. question when a member of the Joint Highway District No. 10 said a freeway was not contemplated and that this right of way only extended to Millbrae. Klassen said he thought it would take about two years' time to lay out definite plans. His proposed route goes south on the Skyline over Canada Rd. through Wood-side, back of Stanford University, ending at the county line near the junction of the San Francisco and Los Trancos Creeks. He main-tains this freeway is mainly to reach "the bedroom" of San Fran-cisco and should therefore be planned to cause the least incon-venience to this county.

To transport clothes to the wash-line, use an old tea cart or a child's coaster.

Troop 103: Sixteen attended the last meeting. Lawrence Welch, scoutmaster, in charge, reported that routine business and games were featured.

Troop 104: Seventeen members were present under the direction of L. W. Allen, scoutmaster, for a meeting featuring games and scout advancement. Some excellent con-tests were staged and many projects in test-passing were completed.

Ship 143: Sea Scouts of the "Challenger" took part in the re-cent Memorial Day parade under the direction of Warner Britschgi. Following the ceremonies the crew called their craft to Coyote Point and towed back a pulling boat to the Redwood City harbor.

A feature of the last meeting was rope work given by Mr. Wolthers and a visit by Andrew Allen, radio-man, recently honorably discharged from the U.S. Navy, was enjoyed. Sixteen of the crew were mustered at roll call, Bob Johnson, yeoman, reported.

Troop 160: Eighteen were present at the last meeting with E. H. George, scoutmaster, in charge. A future troop camp was planned, games were played and the troop committee met in session.

Troop 149: With two patrols in action, several lively contests in-volving scout skills were the high-light of the June 6 meeting under the direction of K. J. Wenzel, scout-master. The compass contest prov-ed the best of the evening. Several of the members passed some scout advancement during the evening.

Troop 154: Business and games featured the last meeting attend-ed by 32 of the membership with Ste-wart Barber, scoutmaster, in charge. Seventeen scouts were reported to have accompanied four of the staff for a swimming party on June 3.

Menlo Park Council OK's \$46,654 Preliminary Budget

The Menlo Park City Council at Tuesday's meeting tentatively adopted a preliminary budget of \$46,654 for next year, which showed an increase of \$4000 over last year. A public hearing was set for July 24 to discuss the matter.

City Atty. James O'Keefe read the introduction of a proposed ordinance to increase the city's business license fees. The increase is expected to net the city an added revenue of \$1300.

The council also passed resolu-tions to raise the salaries of the city attorney, city judge, police chief and patrolmen.

A petition was received from resi-dents of the Brookdell tract re-questing annexation by the city of Menlo Park. A public hearing was set for July 10 and an election will be held on Aug. 7 for Brookdell home owners.

A letter was read from Congress-man Jack Anderson who reported on his correspondence with John Blanford, administrator of the NHA regarding the request of Mayor Donald Fisher for the government to acquire property near Dibble General Hospital for the construc-tion of temporary housing for rela-tives who visit sons and husbands at the hospital.

The agency administrator re-plied: "We have given con-siderable thought to this problem and we are attempting to work out some effective solution. Until some agreement is reached with the undersecretary of war and

congressional funds are made available, it will not be possible for us to acquire the site proposed by Mayor Fisher."

Mayor Fisher commented that he would continue his efforts to relieve the acute housing shortage in Menlo Park. He advised all individuals who intend to build in this com-munity to make application at once with the FHA in San Francisco. He added that he has been advised that all applicants from South San Mateo County will receive special consideration by the agency.

E. G. Stein, San Mateo County Health Department housing in-spector, appeared before the council to report on a housing and sanitation survey made of the Crane sub-division. He summarized his report: "The entire block may be classified as sub-standard and a potential slum area."

Street Comr. Charles Burgess reported that the street department has finished the resurfacing of Cherry and Pine Sts. at a cost of \$772. He remarked that this figure corresponded to the amount allotted by the department's long-range street program.

Park Comr. Wallace Brown announced that a power law-mower was purchased last week by the city park department. Brown also reported that a survey was being made of trees that cover the light by city street lamps.

The council agreed to adjourn un-

Kids, Get In Parade

Winners of the annual Red-wood City kiddie and pets pa-rade to be held Saturday noon from Jefferson St. and Broad-way will be divided into four divisions, pets, costumes, floats and decorated bicycles, it was announced Wednesday.

All youngsters in this area may enter the parade, sponsor-ed by the Tribune, United Span-ish-American War Veterans, Foley & Burk Shows and the Junior Chamber of Commerce. Cash prizes and free tickets to the Foley & Burk Shows will be awarded winners. All young-sters have to do to enter is to decorate bikes, bring their pets, or arrange floats and costumes. Entrants must be at Jefferson St. and Broadway at noon.

George Skanderup Files for Divorce

George Skanderup, operator of the Peninsula Roof & Tile Co. in Red-wood City, Tuesday sued Virginia Skanderup, 1375 Eaton Ave., San Carlos, for divorce.

Skanderup claimed that his wife accused him of keeping company and "having intimate relations with other women," all of which charges he declared are untrue. He stated in the complaint filed in superior court here that his wife embar-til Tuesday, June 26, at 7:30 p.m., at the city hall.

Can You Help This Family?

With her three small children ill, a Redwood City service man's wife has issued an urgent appeal for housing through the local Red Cross and War Housing Council. The young mother is now living with her children, aged 5, 3 and 1½, in one room on the back of a lot. The crowded conditions are endangering the health of the fam-ily, the war council reports, and the father is about to be sent over-seas.

The oldest child recently suffered a broken leg and is now confined to bed with his leg in a cast; the 3-year-old is also confined to bed for rest preliminary to having his tonsils removed; and the baby is also ill.

The parents are long-time resi-dents of Redwood City, the war council reports, and are victims of the housing shortage. Anyone knowing of an available place for this family is requested to telephone the local war council, RC 824, so that they may find a home before the father leaves for overseas.

Most species of bats have but a single young one at birth, but a few species, such as the red bat, have from two to four.

The couple married Feb. 18, 1931, and separated Mar. 8, 1944. Skanderup asked for a division of community property.

No Divorce: Mrs. Bachman

Although there is a divorce suit on file in superior court here and no petition to dismiss the suit has been filed, Mrs. Amy R. Bachman, wife of Arthur Bachman, retired, of Atherton, to whom she has been married 45 years, told the Tribune Tuesday she is not seeking a divorce.

Mrs. Bachman said papers for the suit had been drawn up but that she had not authorized her attor-neys to file them.

In the complaint, Mrs. Bachman, 292 Valparaiso Ave., asked for all community property, value of which was fixed at almost \$1,000,000, for \$1000 a month for personal expenses, \$5000 attorneys' fees, and for an order restraining Bachman from disposing of community property. The restraining order was issued by Superior Court Judge Maxwell Mc-Nutt.

WHY BE FAT?

Get slimmer without exercise. You may lose pounds and have a more slender, graceful figure. No exercise. No laxatives. No drugs. With this AYDS plan you don't cut out any meals, starches, po-tatoes, meats or butter, you simply cut them down. It's easier when you eat AYDS (vitamin-min-fortified) AYDS before meals. Absolutely harmless. Try a large size box of AYDS 30-day supply only \$2.25. Money back if you don't get results. Phone LOCK DRUG CO. 2432 Broadway

No Airport on Monckton Land

Building plans are underway for the first unit of 100 homes on the 308-acre Woodside site proposed last week for an airport, L. E. Werder, Redwood City real estate dealer, announced Monday.

"There will be no airport built on this land," Werder stated, "and there is no other land suitable in Woodside for an airport," he emphasized.

The 308 acres, which is the old Monckton property along Woodside Rd., running east of the Menlo Country Club, is owned by the Land Development Co. of San Francisco, which announced several months ago that the acreage would be subdivided for homes, Werder said.

The old Carson ranch, consisting of 312 acres adjoining the Monckton land and north of the country club, is also owned by the company and will be subdivided for the same purpose, he said.

Last Thursday, Miss Norma Trevor of San Francisco announced that an incorporated firm known as the Dare Air Service was dickering for the purchase of the 308 acres to be used for an airport.

"Miss Trevor did inquire once about that property," Werder said today, "but we told her flatly that it was not for sale."

Coal is formed by the decomposition of vegetable matter under conditions of moisture and in many cases of increased heat and pressure.

Three S.M. County Men Freed, Two Are Casualties

Names of five local men were listed on army-navy casualty lists now made public.

The men are: Seaman 1/c Lyle Richard Wyant, USNR, of 733 Hoover Ave., Redwood City, wounded aboard a destroyer escort off Okinawa;

Sgt. David G. Foulk of 129 Beverly Dr., San Carlos, missing in action over Burma while serving as gunner on a B-24 Liberator;

Second Lt. William R. Dayson, 1576 Valota Rd., Redwood City, liberated from a German prisoner of war camp;

T/4 James A. Lynch, 216 Harrison Ave., liberated prisoner of war; and PFC Albert A. Dunn of Main St., Half Moon Bay, liberated in Germany.

Wyant was seriously wounded on Apr. 12 when his ship was attacked by enemy fighters and dive bombers off Okinawa, his parents, Mr. and Mrs. Vivian V. Wyant, were informed by the Navy Department.

The 19-year-old sailor has been evacuated to a hospital in the Marianas, his parents said. He joined the navy in October, 1943, while a student at Sequoia High School, and has seen action at two Jima, the Philippine Sea and Leyte during the past year.

His brother, Ships Cook 2/c Galin Wyant, who has been in the Pacific for two years, met the young veteran on an unknown island only 12 days before Lyle was injured, his parents learned recently.

Foulk, son of Mr. and Mrs. Joseph L. Foulk, has been missing in action since May 3, a War Department telegram declared.

The 20-year-old gunner had been stationed in India since December and had received the Air Medal. He entered the service in November, 1943, shortly after his graduation from Sequoia High School.

He is the brother of Jim, Virginia, Patricia, Bob and Janyce Foulk.

Dayson, son of Mrs. Signa Dayson, 1576 Valota Rd., was taken prisoner on Apr. 8, 1944. For his participation as bombardier in missions against the Germans, he was awarded the Air Medal with Oak Leaf Cluster which was formally presented to his mother at Hamilton Field in December.

Dayson, who is 28 years old, entered the service in April, 1942, and was commissioned at Demming, N.M. His wife, Annette, resides in San Jose.

He is the brother of PFC Robert (Bob) Dayson who was wounded on Luzon. Cpl. James Dayson who served in Italy with the army, Herbert W. (Jackie) Dayson who is serving with the navy, Mrs. Robert Rose, and Patty and Donald Dayson.

Lynch, the brother of Mrs. Helene R. Hughes of Redwood City, was taken prisoner in December while serving as radio operator with a mechanized unit. A former San Francisco resident, he entered the service three years ago. He last informed his sister that he was in

Sailor Makes Off With Cerqui's Car

A Tanforan sailor, Seaman 2/c Clarence W. Fleming, 18, was under the determined surveillance of Dep. Sheriff Eugene F. Cerqui in the county jail Monday where Fleming faces an automobile theft charge involving Cerqui's car.

Cerqui's wife reported to Redwood City police that the car had been taken from in front of the USO Saturday night before midnight.

San Bruno Policeman Adolph Fernandez located the missing vehicle early Sunday morning, but he reported recovery of the car only after the sailor driver had led him a 15-block chase through San Bruno and crashed the stolen car into another automobile, injuring a passenger in the latter.

The two sailors in the stolen car attempted to flee from the scene, but Fernandez stopped Fleming by threatening to shoot. The captured sailor refused to divulge the name of his companion.

Fleming was returned to Redwood City after San Bruno officers charged him with a hit-run violation.

Europe, awaiting transportation home.

Dunn was reported a prisoner of war two months after he had been reported missing in action in Holland. He served with the 101st Airborne Division.

His parents are Mr. and Mrs. George Dunn, Half Moon Bay. The elder Dunn is publisher of the Half Moon Bay Review.

Minerals and Vitamins Are Found in Same Vegetables

Nutrition experts consider the mineral content of foods as important as the vitamin content but there is no need to grow special crops to supply minerals.

The vegetables which contribute vitamins to the diet, also contain minerals. Take for example calcium, which is required in the large quantity and scarcest under food rationing.

While an adult requires 8 grams each day, adolescents require 14 grams and infants 2 grams. It builds strong bones and teeth, and is important in many bodily functions. Its principal source is milk and cheese, but after these come the green, leafy vegetables, the same that are richest in Vitamins A and C.

Here is a list of vegetables containing calcium, given in the order of their value, the richest first: Green outer leaves of cabbage, turnip greens, mustard greens, collards, kale, watercress, broccoli, endive, Swiss chard, beet greens, dandelion greens, celery, kohlrabi, spinach, okra, leaf lettuce, parsnips, leeks, turnips, snap beans, cabbage heads, carrots and onions.

The calcium content of vegetables will vary according to the presence of calcium in the soil. Soils most likely to be deficient are the black soils, newly plowed or spaded, from which the lime may have been washed out over a period of many years. Sandy soils and those in wooded sections also are likely to need lime.

Lime is easily added, preferably in the form of fine limestone, ap-

plied before the garden is spaded, and thoroughly mixed with the soil. Phosphorus is contributed by the following garden vegetables, given in the order of their value: Fresh lima beans, green peas, parsnips, collards, loose cabbage leaves, and broccoli. It is also found in many other foods which will be reasonably abundant under rationing, so it is not necessary to grow any vegetables especially to provide it. The green, leafy foods are also good contributors of iron.

Probation Committee Favors Higher Limit at Log Cabin

The San Mateo County Probation Committee has voiced itself in favor of co-operating with San Francisco in raising the limit of boys permitted at the Log Cabin Ranch for Boys at La Honda.

The limit at present at the San Francisco-sponsored school for wayward boys is 50, with five as the limit from San Mateo County. An increase in the limit is necessary because of increased juvenile delinquency, Edward H. Cosgriff, chairman of the probation committee, said.

George Ososke, San Francisco probation officer, and John Watson, director at Log Cabin Ranch, spoke at yesterday's committee meeting, which also was attended by Juvenile Court Judge A. R. Cotton.

The committee is in favor of initiating proceedings for increasing the number allowed at the ranch, Cosgriff said.

Members of the committee reiterated their desire to have the new juvenile home constructed on "10 or 11" acres at the north limits of Redwood City. Cosgriff said the members were definitely opposed to a site adjacent to the County Relief Home because of the trans-

portation problem. He declared the probation officers would have to spend too much time and use too much gas and tires traveling back and forth to Redwood City, and it would be difficult for parents of delinquent children to visit at the home if it were built at the relief home site.

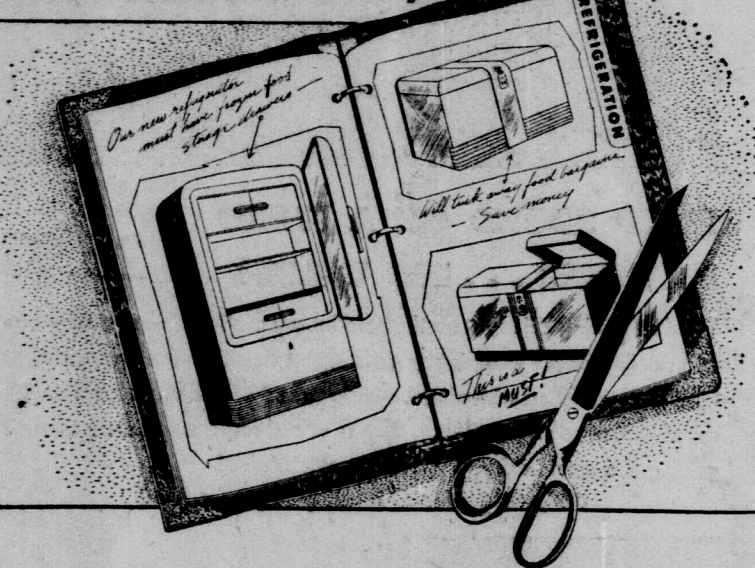

Robert Bielenberg's Battalion Is Cited

S/Sgt. Robert E. Bielenberg of Redwood City is entitled to wear the Presidential Unit Citation as a member of the First Battalion of the Third Division's 15th Regiment, a dispatch from the Seventh Army in Germany has announced.

As a member of the Third Division, he is also entitled to wear the Croix de Guerre fourragere, awarded to the Third by Gen. Charles de Gaulle for the division's work in the Vosges Mountains and Colmar pocket campaigns. The Third is the only division awarded the coveted cord of honor in this war.

Bielenberg's wife is the former Olivia Pratlun of Redwood City.

Plan Now for 194X Living Fresh strawberries in December Winter cranberries in July!

You'll need them both... 194X Refrigerator and Home Freezer

Yes, in the plans for your 194X Home, provide room and adequate wiring for both refrigeration and frozen food storage.

Your Refrigerator will continue to be your faithful, can't-do-without cold storage space for perishable foods needed for daily meal preparation—milk, butter, cream, left-overs, frozen desserts, ice cubes.

Your Home Freezer will give you long-time storage space for frozen foods—fresh frozen fruits and vegetables, meat, ice cream by the gallon. You'll change the seasons with strawberries in December, winter cranberries in July. You'll save money—save shopping trips.

Plan now to have BOTH a refrigerator and home freezer in your NEXT kitchen.

If You See Balloons in Sky. They May Be Weather Balloons

At least two dozen balloons float into Bay Area skies every day, but they don't come from the land of the Rising Sun, they don't carry explosives, and they keep going up until they burst.

They are pilot balloons, released from army, navy and weather bureau aerological stations in the Bay Area.

These pilot balloons have a diameter up to as much as four feet, although they are usually smaller. On clear days silvery grey colored ones are used, but reddish-orange ones are often used when the sky is cloudy.

The balloons are released from the air station and their course is followed through a theodolite, an instrument much like a surveyor's transit. By plotting their course as they rise, accurate data as to wind direction and velocity is obtained.

According to Navy Weather Central, there are seven naval stations in the Bay Area which release pilot balloons. They are sent up at least twice a day, usually at 7 a.m. and 1 p.m. Moffett Field is one of these stations.

These balloons go up to as high as 40,000 feet, expanding as they

climb, until atmospheric pressure is so low that the gas pressure inside explodes them.

Headquarters of the Fourth Fighter Command said they have four stations which release pilot balloons. The U.S. Weather Bureau station in Oakland also releases four pilot balloons a day.

In addition to the pilot balloons, the weather bureau also releases two instrument-carrying balloons a day.

These differ from the pilot balloons, which are free-floating spheres with no attachments, in being much larger and carrying

meteorological instruments to record weather conditions, such as pressure, temperature, and humidity, as they rise in the sky.

Either a parachute or smaller balloon is attached to the instrument case or basket to return it gently to earth after the lifting balloon has burst by its gas pressure at high altitudes.

The instruments that parachute back to earth are clearly marked as the property of the weather bureau and a small reward is offered for their return.

Some sounding balloons also carry small radio transmitters which automatically report the instrument readings throughout the balloons' flight.

There is no particular security attached to these balloons as far as it is concerned, Navy Weather Central declared.

The Fourth Fighter Command revealed that recently one of the weather bureau's big sounding balloons was shot down. The bureau wasn't too pleased, the air forces officer added.

Judy Garland To Wed Tomorrow

HOLLYWOOD (AP)—Judy Garland will be married tomorrow to Vincente Minelli, director of her last three movies.

The ceremony will take place in the Los Angeles home of her mother, Mrs. Ethel Garland.

She obtained a final divorce decree last week from Musician David Rose.

Bats are among the most ancient of mammals.

Dad has favorite dishes

And Father's Day is an excellent time to serve them... to prove all over again that you love him. So forget the calories and vitamins for a day and give him those things he likes... just because they taste so good, such as—

For Breakfast—CORN PANCAKES

2/3 cup all-purpose flour 2 tbsps. sugar
1/2 cup corn meal 1 tsp. salt
1/2 tbsps. baking powder 2 eggs
1/4 tsp. soda 2 1/2 cups milk
2 tbsps. melted butter or margarine

Sift flour, measure, and sift again with corn meal, baking powder, soda, sugar, and salt. Beat egg yolks, add milk and combine with dry ingredients, beating until smooth. Add melted butter or margarine and fold in stiffly beaten egg whites. Drop by tablespoonfuls on moderately hot, lightly-greased griddle or heavy frying pan. Turn cakes when bubbles form on top surface. Bake until golden brown. Serve with equal amounts of melted butter or margarine and heated syrup. Makes 10 to 21 medium-size cakes.

For his favorite dinner—Chicken Fricassee or Beef Stew with Dumplings.

DUMPLING QUICKIE

2 cups biscuit mix 1 cup milk
Place mix in bowl; add milk all at once; stir only until all of the flour is dampened. Drop dumplings by tablespoonfuls on gently boiling stew or liquid in large kettle with tight-fitting cover; cover; steam 15 minutes or until done, without removing cover. Makes 12 medium-size dumplings.

or

HASHED BROWNED POTATOES

Melt 3 tablespoons shortening in a heavy frying pan; add 3 cups chopped or finely cut boiled potatoes, heaping them toward the center and away from the edges of the pan; season to taste. Cover with a lid or heavy plate; press down so that cover is right on top of the potatoes; place a box of salt or a rock on top to give pressure. Cook slowly and without turning for 15 to 20 minutes, or until crusty brown. Turn out onto a warm plate. Cut into 6 pie-shaped wedges to serve.

Campership Fund Drive Opens Here

The annual campaign for the campership fund sponsored by the Redwood City Lions Club and the Tribune got under way Tuesday.

The fund will be used to send youngsters to camp this summer. The Boy Scout camp will be held at Pescadero and the YMCA camp will be held at Jones Gulch. The Girl Scout camp at Camp Chaparral in Big Basin already is filled up.

Contributions are asked from any individual or organization. Anyone may contribute any amount. Thirteen dollars will send a boy to the Boy Scout camp for a week, and three dollars more will pay his transportation from Burlingame, departing station, to the camp.

Thirty dollars will pay for a two-week session at the YMCA camp, including transportation.

Contributors may designate which camp they wish their money to go, or they may contribute to a general fund which will be divided equally among the youth groups to send to camps children who could not otherwise go.

Contributors also may name the youngster they wish to send to camp, or let the officials of the organizations select someone to go.

The Boy Scout sessions will be held June 24-July 8; July 8-15; and July 15-22. The YMCA camp sessions will be held July 12-26 and July 26-Aug. 9.

Persons who plan to contribute are asked to do so early so that reservations for the youngsters may be made.

Anyone wishing to contribute any amount may do so either anonymously or in his own name. Checks should be made payable to the Lions Club-Tribune Campership Fund and sent or brought to the Tribune office, 30 California St.

Peter Miakinis Sue For Daughter's Death

Mr. and Mrs. Peter Miakinis, 667 Alameda de las Pulgas, Tuesday sued Della Burns, 237 Topaz St., for \$15,530.36 for an accident which caused the death of their daughter, Olga, 12, on Jan. 23.

The young Miakinin girl was riding a bicycle when the bicycle and an automobile driven by Mrs. Burns collided at Katherine and Myrtle Sts.

Seed Disinfectant Loss in Early Services

Seeds and infant plants (seedlings) are often attacked by molds or fungi which destroy them. This is most likely to occur when conditions are unfavorable, and they become either too wet, cold or warm for quick germination and healthy growth.

Seeds started indoors, or early in the spring before the ground warms up, are much more likely to be attacked than those sown in warm, sunny weather. There are said to be 500 different organisms which may be present in soil or on the seeds (like bacteria in the human system) waiting favorable conditions to develop.

One way to protect your sowing from these attacks is to disinfect the seeds, with one of a number of disinfectants which have been proved to be effective. This protection is especially worth while when you are trying to get an extra early start, either by sowing indoors, or in cold weather outside.

There is no using these materials with the simple directions given with them are followed, proper use and disinfectant is of great strength than recommended, is remarkable what a small amount will do.

For example, in using disinfectant as a dry powder, the quantity which can be lifted on the blunt end of a toothpick is sufficient to coat and protect the seed in a standard-size packet. Tear corner of the packet, insert the dust and shake thoroughly, and the job is done.

Most of these materials can also be used in liquid form, the seed being soaked in the solution, then dried before sowing.

Information about the best disinfectants can be obtained from seedsmen, from state experiment stations, from the Bureau of Information of the Department of Agriculture in Washington, and from most garden centers and Victory garden headquarters.

Redwood City Isn't Backing The Seventh War Loan Drive

"Redwood City is dragging its heels in the Seventh War Loan

Drive," Chmn. Walter T. (Bud) Kellogg said Tuesday in reporting that only 54 per cent of the \$550,220 quota has been met, with the deadline of June 30 nearly here.

Mills Field Bonds Backed

The Bay Area Aviation Committee Monday voted unanimous approval of the proposal to develop Mills Field in San Mateo County into one of the world's best international airports through a \$20,000,000 bond issue.

The Civic League of Improvement Clubs yesterday also demanded that the San Francisco Board of Supervisors allow no further delay in opening discussions preparatory to placing the airport bond issue on the November ballot.

Four major airlines operating from Mills Field—Pan American, TWA, United and Western—employ 4700 persons in airline operations with annual pay rolls of \$14,200,000, and postwar expansion is expected to expand these pay rolls and increase the number of major airlines operating from the field.

Total of E bonds sold now stands at \$335,642.60, he reported. "Redwood City residents would have to purchase \$10,000 worth of E bonds a day to fulfill the quota, before June 30," he added.

Block matrons in Redwood City have been making a house to house canvass to sell bonds and keep people conscious of the drive. J. A. (Jake) Buhler, chairman of the war finance committee, said today.

In Zone 2, Mrs. A. Blomquist is captain of the matrons with Mrs. Cora Himman and Mrs. Mary Thompson as lieutenants. Eighteen matrons in that zone are serving in the interests of the Seventh War Loan Drive, Buhler reported.

Wash baby's carriage thoroughly and oil squeaky wheels and springs. Air cushions and pillows before replacing them.

Atherton Home Razed by Fire, Occupants Safe

The five-room home of Mr. and Mrs. George Ohninus, 75 Toyon Rd., Atherton, was almost completely destroyed Monday night by a fire which did damage estimated at \$2500.

The owners of the home who were sleeping in a patio, were roused by a member of the family who was sleeping in a summer cottage in the back of the house at 11:09 p.m.

Thomas F. Cuff, fire chief of the Menlo Park Fire Dist., which extinguished the blaze, estimated damage to the house at \$2000 and to the contents, \$500.

One wing and the center of the wooden structure were gutted, Chief Cuff reported, and another wing was damaged by smoke. Firemen said the blaze possibly started from a spark from a cigaret on a sofa in the dining room.

Three pieces of fire fighting equipment—two from Menlo Park and one from Atherton—responded.

Fire in the home of Ollie Gomes at Pescadero at 5:30 p.m. Monday did damage estimated at \$300, the San Mateo County Forest Service, which extinguished the blaze, reported today. The fire started from a leak in a butane tank on the outside of the house and damaged the back part of the house and part of the roof. The Pescadero fire station responded.

Million-Dollar S.M. Airport?

SAN MATEO—San Mateo may soon have a million-dollar airport with a dual runway built to handle 700 planes on a Bay Meadows site including some 220 acres between the oval and Bayshore Hwy.

This was disclosed here by the San Mateo Chamber of Commerce, after Oscar C. Sponheim, chairman of the chamber's airport committee, conferred at length yesterday with Fredrick Dupuy of Berkeley, who represents William P. Kyne, manager of Bay Meadows.

Dupuy displayed maps he said he had made at the request of Kyne, and his visit revived plans for early construction of the civilian airport.

"I cannot speak for Mr. Kyne," Dupuy, a retired army colonel added, "but I can say this much, that if the community wants an airport at Bay Meadows, he will do everything to make this possible before too long."

Weltner's Slashes Used Car Prices!

Minimum **10%** As much as **30%**

There are only two reasons for this!

1. WE ARE CONVINCED USED CAR PRICES ARE TOO HIGH.
2. AS THE LEADER IN THIS BUSINESS IT IS OUR OBLIGATION To do something about it regardless of the substantial loss to us.

This does not mean good used cars are plentiful; on the contrary they are VERY SCARCE and will be VERY SCARCE for many months. The whole point is that the same car that was worth — for example, \$800, a year ago, is not worth \$800 today — no matter how scarce such a car may be.

Don't buy a car if you don't need one. If you do want a car BUY ONE HERE. Where can you match these values?

Hospital Wouldn't Have To Be Inside City Limits

(Editor's note: This is the last of five articles summarizing the survey of Dr. Thomas R. Ponton and Associates on the needs of a hospital in Redwood City.)

The site for Redwood City's proposed hospital need not be within the city limits, according to the Ponton survey.

"On the contrary," Dr. Thomas R. Ponton remarks, "a suburban site is found to be better since it can be away from noise and dirt and in such a location it is not likely to be shut in by high buildings. While it should not be on a main highway it should be easily accessible and all utilities . . . should be available.

"It would not be good policy to mention specific sites at this time but several locations were visited with a member of the city council and the manager of the chamber of commerce. My preference was given verbally to these gentlemen."

He estimates that it would cost approximately \$250,000 for a hospital of 50 beds, plus \$20,000 for two cottages of five beds each to accommodate convalescents, a provision no other city, Dr. Ponton believes, has adequately met.

The hospital may be financed by bond issue or by subscription. He recommends that the hospital be divorced from city politics, and that if a bond issue is decided upon, that the hospital be owned by a hospital district as provided in a bill now before the legislature.

If financed by subscription, a corporation is formed and those subscribing to the funds become members usually designated as "governors." Those whose contributions exceed \$100 become life members, others "annual" members.

The governors meet annually to elect a board of trustees to which is delegated full authority in management.

A modification of the subscription plan is a joint stock company incorporated on a non-profit basis. All profits accrue to the hospital and no person may secure any financial profit from the institution.

"I strongly favor the non-profit joint stock company since it provides a stable organization in which voting power is proportionate to the amount subscribed," the report declares.

"Successfully financing the operation of a hospital of the type that is contemplated depends on the quality of the service rendered, and

Grass Fire Sweeps Anguilar Ranch

Whipped by a small wind, fire Sunday afternoon swept through grazing land on the Anguilar ranch on Page Mill Rd. a mile west of El Camino Real, the county fire warden reported today.

The alarm was turned in at 4:35 p.m. when the blaze covered more than 100 yards of pasture land. Cattle stood by watching the flames creep toward them, firemen said, but none was injured. An estimated \$200 damage was caused by the fire which covered one and one-half miles and was a fourth of a mile wide before being brought under control.

Two trucks from the county fire department, three from Stanford and two from the State Fire Division at Alamo answered the call. More than 40 men battled the blaze in the heat of the afternoon. The flames were brought under control at 6:30 p.m.

Ten old oak trees were set on fire and were still smoldering this morning, firemen said. No one was injured during the fire.

this is particularly true in Redwood City," the survey concludes. "The great hospitals of San Francisco offer excellent service and two other hospitals within easy reach also will continue to attract patients. If the proposed hospital is to be successful it must offer a service which is at least equal to any of these . . .

"If these principles are followed rigidly I can see no reason why the proposed hospital under good business management cannot be self-supporting. In fact, I believe that it can show a profit which may be used for any improvements that may be desired and to assist those who are not proper objects of charity but who may be unable to pay the full cost of their care."

Back From Army

Mervin A. (Scotty) Redmond, 22, has returned to his old job at S. H. Frank's Tannery after serving two years in the army. He recently received an honorable discharge. Private Redmond was born and raised in Redwood City.

PUBLIC NOTICE

George W. Phillips Jr., Atty. Notice of Sale of Real Estate at Private Sale—No. 9055 IN THE SUPERIOR COURT OF THE State of California, in and for the County of Alameda.

In the Matter of the Estate of JAMES M. IRVING CUMMINGS, also known as JAMES I. CUMMINGS, Deceased. Notice is hereby given that the undersigned Administratrix of the Estate of James Irving Cummings, also known as James I. Cummings, deceased, will sell at private sale to the highest bidder for cash and subject to the confirmation of the Court, on or after June 25th, 1945, at the hour of 10 a.m. of said day, at the office of George W. Phillips Jr., Attorney at Law, 1404 Franklin Street, in the City of Oakland, County of Alameda, State of California, all the right, title, interest and estate of said deceased in and to the following described parcel of land, to-wit:

That lot of land in the City of San Carlos, County of San Mateo, State of California, described as follows, to-wit: Portion of Lot numbered two (2) in block numbered twenty-two (22) as shown on that certain map entitled "A Resubdivision of Block 27, Oak Park, San Mateo Co., California," which map was filed in the office of the County Recorder of San Mateo County July 10, 1925, in Book 12 of Maps at pages 52 and 53, described as COMMENCING at a point on the Southerly line of Howard Boulevard where same is intersected by the dividing line between Lots 2 and 3 in said Block 29, as said Lots Block and Boulevard appear on map above referred to; thence Southerly along said dividing line 129 feet to the corner common to lots 2, 3, 17 and 18 in said Block; thence Westerly along the dividing line between Lots 2 and 18 in said Block, 41.30 feet; thence North-westerly in a straight line 120 feet to a point on the Southerly line of said Howard Boulevard, distant Westerly thereon 50 feet from the point of commencement; thence Easterly along said line of said Boulevard 53 feet to the point of beginning.

Bids and offers are invited for said property and must be in writing and will be received at the office of George W. Phillips Jr., Attorney at Law, 1404 Franklin Street, Oakland, California, or may be filed with the Clerk of said Superior Court of the State of California, in and for the County of Alameda, at any time after the first publication of this Notice and before the making of said sale. Terms and conditions of sale: Cash in lawful money of the United States of America; ten per cent (10%) of the purchase price to be paid on the day of sale; balance on confirmation of sale by the Court; deeds and title insurance costs to be at the expense of the purchaser.

Dated: May 25, 1945. Mabel E. Balch, Administratrix. Geo. W. Phillips Jr., Attorney for Administratrix, 1404 Franklin St., Oakland (12) Cal. 452166. June 8, 15, 22, 1945.

These Simple Methods Will Improve Garden Soil

Garden soil should never be worked when too wet, but as soon as a handful, patted between your palms, crumbles instead of forming a mud pie, it is time to begin spading or plowing, to make ready for sowing the first seed.

If your garden plot has six hours' sun a day, and is free from the roots of trees and shrubs, its soil can probably be put into good condition to grow vegetables.

The most frequent condition which needs correction is a predominance of clay, which makes a heavy soil, difficult to work, which holds water well but shrinks and cracks when dry.

The problem of dealing with clay is simply to make it coarser.

It can be coarsened by mixing with it coarse materials, such as old ashes, cinders, fine gravel, or best of all, well decayed organic matter from a compost heap or old manure pile. Sand is often recommended, but a little sand often seems to make clay harder; very large quantities should be used, if any. Instead of sand, fine limestone screenings which are just as cheap, will do a fine job.

Lime has a special effect upon clay. It makes the fine particles collect into coarser grains. It also has a chemical effect on soils. While lime is not a fertilizer, it makes plant foods which are present in the soil available to the plants.

When soil is too acid, or too alkaline, chemical reactions which are extremely complex make it difficult or impossible for plants to get the nutritive elements required for growth.

Soil should test from pH5 to pH7, to be sure that your plants will benefit from the fertilizer you apply. The pH scale is used to measure the active acidity of the soil. Each unit on the pH scale represents a tenfold difference in acidity, so that compared with pH7, pH6 is ten times and pH5 one hundred times as acid.

Soils that are too sandy let water through too quickly, and with the water goes much of the plant food which you had intended to be stored for the use of your plants all season. Clay can be mixed with sand to good effect, and any form of decayed organic matter, or humus, will help make sandy soil retain water and fertility. Lime also improves sandy soil.

An important role of humus in soil is to act like a sponge in absorbing and storing water up to a certain point, but rejecting an excess. Get all the humus into your soil that you can, provided it is thoroughly decayed.

Fresh milk is in the daily ration of the armed forces in World War II for the first time since the Revolutionary War.

When Soil Crumbles in the Hand, It Is Dry Enough to Work.

Fresh milk is in the daily ration of the armed forces in World War II for the first time since the Revolutionary War.

Cabbage, cauliflower and kohlrabi are often best cooked in half milk, half water with the liquid used for white sauce.

Ration Board Badly Needs Workers

Mrs. Peninah Spence, chief clerk of the Redwood City War Price and Ration Board, announced Wednesday that sugar rations for canning are being processed as rapidly as possible.

"There are approximately 4000 ration applications in the office," she explained. "When we have four persons available to work on sugar, we can issue between 500 and 600 a day. Monday we had four women working and issued 500. Today we have but two persons available and only half that number will be issued."

Mrs. Spence said the need for volunteer workers at the ration board is still acute. Despite repeated appeals to the public to handle their rationing requests by mail, the foot traffic at the office is so heavy that clerical work is impeded and applicants are forced to wait in long queues.

The OPA panel has decided to curtail shoe rations, she disclosed, because of an excessive issue of 2100 shoe rations in April.

"In some cases," she said, "applications have been made for extra shoe rations for entire families of eight or nine. In the future no more than two shoe rations will be issued to an applicant without an investigation by the panel."

S.F. CAP Squadron Moves to San Carlos

The San Carlos Airport has been secured as new field headquarters for San Francisco Squadron 1 of the Civil Air Patrol, it was announced Monday.

This will have no effect on the Redwood City and Peninsula C.A.P., which has its headquarters at the Palo Alto Airport, it was stated.

Limited private flying at San Carlos Airport has resumed and it is expected that private flying will start soon at Belmont, San Carlos and Palo Alto fields. Flying will be conducted on Sundays at the San Carlos Airport.

Philadelphia Golf Tourney Opens Today

PHILADELPHIA — It's Lord, to give Nelson his sternest battle, Byron Nelson against the field today as the second annual Philadelphia Inquirer golf tournament opens with \$17,500 in war bonds as prizes. Sammy Sneed, favored by many

to give Nelson his sternest battle, showed up with a sore wrist, but turned in practice rounds of 68 and 70. Defending champion Sammy Byrd of Detroit, U. S. Open Champion

Craig Wood of Mamaroneck, N. Y.; Harold "Jug" McSpaden, playing unattached and Henry Picard, of Harrisburg, Pa., are in the field of 136 pros and amateurs.

An ampere is a unit of electric current, and measures the strength or intensity of the current.
